Since 1967, the Gainesville Association for the Creative Arts has creatively nurtured thousands of Alachua County's children with our fun and educational workshops in visual and performing arts. We proudly provide a broad-based selection of classes for all ages that are conveniently scheduled and affordable. True to our mission of "Getting All Children into the Arts," GACA has an extensive scholarship program that offers low-income families the opportunity to take advantage of our programs at no charge.

Our teachers are professionals in each art discipline they teach and encourage the expression of each child's creativity in an atmosphere that is informal, yet challenging. This unique approach places the emphasis on the creative process rather than the product and aids in developing manual dexterity and critical thinking skills while fostering cooperation, patience, and diligence. The correlation between arts education and academic achievement has been well documented. When the arts are included as an integral part of a child's development, creativity and self-esteem also blossom.

GACA's commitment to the children of our community is further enhanced with extensive outreach and performances throughout Alachua County. We are proud of our continuing efforts and are grateful for each child that we teach, because each child is a gift.

ART

DANCE

T

**Print-a-Paint Workshop Fee \$45**  
 Ages 4 - 7 3:45 - 4:30 PM Littlewood Art Room  
 Kids will be using painting and printmaking, two mediums which encourage them to stretch their creativity. We'll be printing with found objects as well as bars of soap, erasers, melted crayons, vegetables and perhaps the simplest tool of all, our fingers!! We will also be exploring patterns, shapes, and textures through various painting techniques. By merging printmaking and drawing, our workshop will be filled with spontaneous works of art.

U

E

**Papier-Mache Workshop Fee \$45**  
 Ages 7 - 11 4:35 - 5:15 PM Littlewood Art Room  
 Paper and paste are all you will need in exploring and creating with this outstanding material. Whether it be small, crazy, functional or not, the things that can be made with papier-mache are endless. Another great characteristic is that it is a great way to recycle. We will be creative with our materials and use items that might otherwise end in the garbage. The finished pieces will not only open our minds to inventive ways of viewing every day things but we can enjoy them around us as our own creations.
